

SIGMA 4-4-4 BIO

Performance Fertilizer for Organic Production

Our most popular blend utilizes a balanced 4-4-4 and value-added biologicals to fuel plants and recharge depleted soils. This fantastic all purpose fertilizer is an excellent choice for a wide range of crops including all types of vegetables.

Optimal Nutrition

Balanced 4-4-4 NPK plus Calcium and Iron.

Organic Ingredients

Processed poultry manure, bone meal, feather meal, humic acids and sulfate of potash.

GranCORE™ Technology

Nutrients, humic acids, microbes and more combined into a heat treated and easy-to-spread granule.

50 Lb. Poly Bag (22.68 KG)
2000 Lb. Totes (907 KG)
Bulk Load

Driven by nature.
Backed by science.

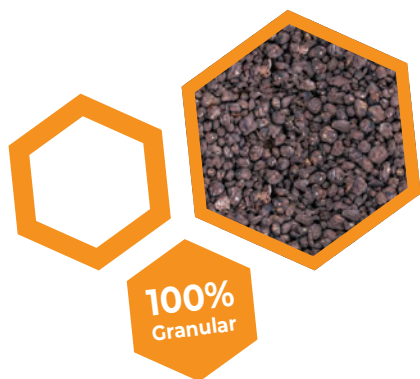

SIGMA 4-4-4 BIO

Get more out of each application with this signature blend of essential nutrients, beneficial microbes and humic acids.

Perfect when used as a pre-plant nutrition boost by incorporating into soil 2-3 weeks prior to planting or for broadcast applications. Also ideal for container, ornamental, and turf applications. Scientifically formulated organics + biologicals for healthier soil and increased crop performance.

GUARANTEED ANALYSIS

Total Nitrogen (N)	4.0%
0.4% Water Soluble Nitrogen	
3.6% Water Insoluble Nitrogen	
Available Phosphate (P_2O_5)	4.0%
Soluble Potash (K_2O)	4.0%
